## What is special about our curriculum?

### **Take on the World**

MMC's business programs are closely woven with the liberal arts to mold global citizens who are culturally competent and socially responsible. We strive to foster visionary thinkers and doers, who will shape the future.

### **Embrace Change**

The curriculum and co-curriculum provide multiple perspectives to enable our future leaders to find creative solutions to problems.

### **Follow your Passion**

MMC faculty draw on the passion innate in each student. We encourage each student to enrich learning by selecting majors, minors, and activities that draw on their special talents and interests.

### **Be Inspired**

Our Alums and Advisory Board represent the gamut of NYC and are actively engaged in mentoring and inspiring current students as they forge their own career paths.

### **Innovate**

What could be better than to study business and innovation in NYC – a city that continually re-invents itself and is the epicenter of global business? We are committed to fostering innovative thinking to prepare students to excel in their careers.
